+	Feedback	Grade
Simplification		
	Well done for simplifying the question before differentiating.	✓
	You should have simplified first before differentiating, instead of using the product rule.	!
	Unnecessary simplification after getting the correct answer. This form is also not preferred.	!
Final Answer		
	Correct answer in the preferred form.	+2
	Correct answer, but not in the preferred form of $\frac{3}{2}x^{\frac{3}{2}}$	+1.5
Notation		
	$\frac{d}{dx}$ is an operator. It cannot equal something algebraic. You wouldn't write $\div = \sin(x)$.	!

Polynomial Differentiation	
Question 2:	Grade: 2 out of 2
Differentiate $\sqrt{x} \times x$	
	<p>You should have simplified first before differentiating, instead of using the product rule. !</p> <p>Correct answer in the preferred form. +2</p> <p>Unnecessary simplification after getting the correct answer. This form is also not preferred. !</p>
Mark as done	

WHAT DOES MARKIT OFFER ?

Auto-marking through AI provides a reliable, efficient, and impartial way to evaluate student submissions. This approach eliminates human error and bias from grading, resulting in objective and consistent student evaluation.

PRODUCT FEATURES

Streamlined
Assessment and
Collaboration

Customisable and
Secure Experience

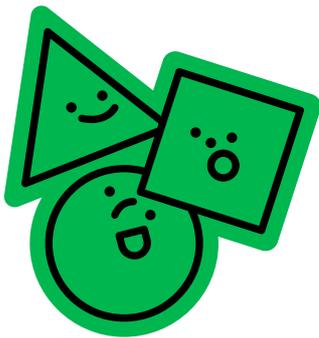

AI-Powered
Marking
Assistance

EFFICIENCY

Automated grading systems significantly reduce the time and effort required to evaluate exams, enabling teachers and professors to focus on other critical aspects of education

CONSISTENCY

Automated grading systems follow a predefined set of rules and standards consistently, ensuring fair and objective evaluations for all students

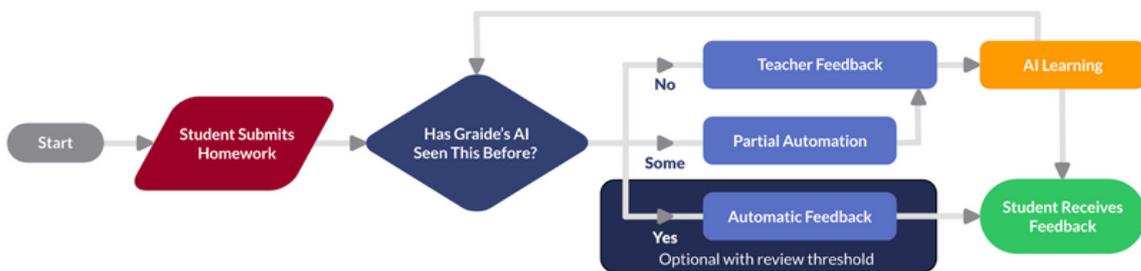

SPEED

With AI-powered grading systems, exams can be evaluated and results generated in a fraction of the time it would take manually

THE AI IN MARKIT

As you grade, our platform uses AI to analyse your students responses and how you give feedback. This lets you grade multiple responses at the same time.

Your feedback

Student Answer

AI suggestions based on your feedback

HOW MARKIT IS BETTER?

	MARKIT	Multiple Choice	Automatic Grading
Can give feedback on working	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Analytics on approach	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Freeform answer	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Doesn't require programming	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Accepts handwriting	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Personalised feedback	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
